

**SCHEDULE F - FORM 7**

**THE MINES AND MINERALS ACT**

**NOTICE OF DISCOVERY -  
Radioactive Minerals**

To: Director of Mines, Dept. of Mineral Resources,  
5th Floor, Youyi Building, Brookfields, Freetown.

From: Name (please print) .....  
Holder of mineral right ..... No. ....

Please be notified that in the course of exercising my rights with respect to the above specified mineral right, I have discovered the presence of radioactive minerals.

The following course of action shall be taken as a result of this discovery. (please specify A. or B.)

- A. I have no interest at this time in conducting further work on this occurrence to determine the type, extent and concentration of radioactive mineralization, and submit this notice for information purposes only.
  
- B. I wish to conduct further investigation of this occurrence. Please amend my mineral right to include "radioactive minerals".

I shall forthwith submit an application for a **Radioactive Minerals Investigation Permit**. I understand that further work on this occurrence will be halted until such a permit is issued, if radioactive mineral concentrations in representative samples are determined to exceed 200 parts per million.
